SILVER HEALTH PLAN

Fictional Policy Document - Version v1

Important synthetic-data notice
This policy is fictional and was created only for the Health Insurance Policy Advisor capstone project. It does not represent a real insurer, insurance contract, legal commitment, medical recommendation, or financial product.

Field	Value
Plan ID	PLAN003
Plan name	Platinum Health Plan
Version	v1
Effective date	1 January 2025
Status	Active
Policy type	Individual synthetic health plan
Annual hospitalization limit	500,000 synthetic currency units
Document purpose	Demo, retrieval, comparison, and evaluation

How to use this document

The sections below describe fictional benefits, limits, waiting periods, exclusions, documentation, and claims steps. Every clause has a stable clause ID so the advisor can cite the exact evidence used in an answer.

1. Plan Overview

The Platinum Health Plan provides a basic level of fictional inpatient and related health coverage for demonstration purposes. Benefits apply only when eligibility, waiting periods, limits, documentation, and other stated conditions are satisfied.

Quick plan snapshot
Annual hospitalization limit: 500,000 units Room limit: 10,000/day ICU limit: 18,000/day
Planned-procedure waiting period: 30 days

1.1 Eligibility and coverage basis

PLATV1-ELG-001 - Eligibility

Coverage is available only to an enrolled member whose fictional policy is active on the date of service and whose benefit request meets the conditions stated in this document.

PLATV1-ELG-002 - Coverage territory

Eligible treatment received within the fictional approved service territory may be considered. Treatment outside that territory is not covered unless an approved exception is recorded.

PLATV1-LIM-001 - Annual benefit limit

The total eligible hospitalization benefit payable during one policy year is limited to 500,000 synthetic currency units across covered inpatient services.

PLATV1-LIM-002 - Benefit coordination

Payments under individual benefit categories are subject to category limits and also reduce the remaining annual hospitalization limit where applicable.

1.2 Core benefit schedule

Benefit	Limit type	Synthetic limit	Waiting period
Inpatient hospitalization	Annual	500,000	As applicable
Room expenses	Per day	10,000	As applicable
ICU expenses	Per day	18,000	As applicable
Ground ambulance	Per hospitalization	10,000	None after eligibility
Pre-hospitalization	Per event	Within annual limit	30 days before admission
Post-hospitalization	Per event	Within annual limit	60 days after discharge
Maternity	Not included	0	Not applicable

2. Hospitalization and Medical Benefits

This section describes the main eligible inpatient and related benefits for the fictional Platinum Health Plan.

PLATV1-BEN-001 - Inpatient hospitalization

Eligible inpatient hospitalization lasting at least 24 consecutive hours is covered when the admission is medically documented and the service is not excluded elsewhere in this policy.

PLATV1-BEN-002 - Room benefits

Eligible room expenses are covered up to 10,000 synthetic currency units per day. Any amount above the daily room limit is not covered under this plan.

PLATV1-BEN-003 - ICU benefits

Eligible intensive-care-unit expenses are covered up to 18,000 synthetic currency units per day when ICU admission is supported by hospitalization records.

PLATV1-BEN-004 - Nursing and medical services

Eligible inpatient nursing charges, treating-doctor fees, and medically required inpatient monitoring are covered within the annual hospitalization limit.

PLATV1-BEN-005 - Diagnostics and medicines

Diagnostic tests, medicines, and consumable medical supplies prescribed and used during an eligible hospitalization may be covered within the annual benefit limit.

PLATV1-BEN-006 - Surgical and procedure expenses

Eligible surgeon, anesthetist, operating-room, and procedure charges are covered when the procedure is approved and is not listed as an exclusion.

PLATV1-BEN-007 - Day-care procedures

An eligible procedure that normally requires hospitalization but can be completed in less than 24 hours due to modern medical practice may be considered as a day-care benefit when supported by clinical documentation.

PLATV1-BEN-008 - Ground ambulance

Eligible ground-ambulance transport to or between hospitals is covered up to 10,000 synthetic currency units per hospitalization when transportation is medically necessary.

2.1 Pre and post-hospitalization benefits

PLATV1-BEN-009 - Pre-hospitalization

Eligible consultations, prescribed diagnostic tests, and medicines incurred during the 60 days immediately before an approved hospitalization may be covered when directly related to that hospitalization.

PLATV1-BEN-010 - Post-hospitalization

Eligible follow-up consultations, prescribed diagnostic tests, and medicines incurred during the 120 days immediately after discharge may be covered when directly related to the approved hospitalization.

3. Additional Benefits and Limitations

PLATV1-ADD-001 - Teleconsultation follow-up

One eligible post-discharge teleconsultation may be considered within the 60-day post-hospitalization period when it relates to the approved hospitalization.

PLATV1-ADD-002 - Second medical opinion

One documented second medical opinion per policy year may be considered for a planned major procedure. The opinion does not guarantee authorization or payment.

PLATV1-ADD-003 - Organ donor hospitalization

Eligible hospitalization expenses of an organ donor may be considered only when the recipient is an enrolled member and the transplant procedure is otherwise covered.

PLATV1-ADD-004 - Home-care limitation

Routine home nursing, convenience care, and non-clinical assistance are not covered. A short medically documented home-care service may be considered only when specifically authorized as an alternative to continued inpatient care.

PLATV1-ADD-005 - Network condition

For planned hospitalization, use of a fictional approved network hospital is required unless a non-network exception is approved before admission.

3.1 Benefits not included in Platinum v1

Benefit	Platinum v1 status	Notes
Maternity and childbirth	Not included	Maternity is covered up to 75,000 units after the applicable waiting period.
Air ambulance	Not included	Eligible emergency air ambulance may also be covered up to 50,000 units.
Routine dental care	Not included	Emergency inpatient dental treatment may be reviewed only if linked to a covered accident.
Vision correction	Not included	Routine eye exams, spectacles, and contact lenses are excluded.
Wellness membership	Not included	Gym and lifestyle memberships are not covered.

Important
Benefit descriptions do not guarantee payment. Each request remains subject to eligibility, limits, waiting periods, exclusions, required evidence, and validation.

4. Waiting Periods

A waiting period is the time that must pass after the applicable policy start date before a benefit becomes eligible.

PLATV1-WAIT-001 - Initial waiting period

Illness-related inpatient hospitalization is subject to an initial waiting period of 30 days from the policy start date. Eligible accident-related hospitalization is not subject to this initial waiting period.

PLATV1-WAIT-002 - Planned procedures

Eligible planned procedures are subject to a waiting period of 30 days from the applicable policy start date.

PLATV1-WAIT-003 - Pre-existing conditions

Treatment directly related to a fictional declared pre-existing condition is subject to 6 months of continuous coverage before eligibility.

PLATV1-WAIT-004 - Specified conditions

Treatment for fictional specified conditions, including listed non-emergency elective procedures, is subject to 6 months of continuous coverage unless a shorter period is explicitly approved.

PLATV1-WAIT-005 - Maternity waiting period

Eligible maternity benefits are subject to 9 months of continuous coverage before eligibility.

4.1 Waiting-period summary

Scenario	Waiting period	Notes
Illness-related hospitalization	30 days	Accident-related eligible hospitalization is exempt.
Planned procedure	30 days	Applies from policy start date.
Pre-existing condition	6 months	Requires continuous fictional coverage.
Specified elective condition	6 months	Subject to the listed-condition rules.
Maternity	Not covered	Waiting does not create coverage.

5. General Exclusions

The following services are not covered unless another approved clause explicitly creates an exception.

PLATV1-EXC-001 - Cosmetic-only procedures

Services classified as cosmetic-only procedures are excluded unless required as part of a covered reconstructive treatment following an eligible event.

PLATV1-EXC-002 - Non-prescribed treatment

Medicines, tests, therapies, or services obtained without an appropriate fictional clinical prescription or treatment record are excluded.

PLATV1-EXC-003 - Experimental treatment

Experimental, unproven, or investigational procedures are excluded when they are not recognized by the fictional policy rules as standard eligible treatment.

PLATV1-EXC-004 - Non-medical expenses

Personal comfort items, guest meals, administrative convenience charges, entertainment, and other non-medical hospital expenses are excluded.

PLATV1-EXC-005 - Routine dental and vision

Routine dental treatment, cleaning, orthodontics, eye examinations, spectacles, and contact lenses are excluded unless directly linked to an eligible covered accident and approved inpatient care.

PLATV1-EXC-006 - Maternity services

Fertility treatment and non-covered maternity services remain excluded; eligible maternity hospitalization is covered within the stated maternity limit.

PLATV1-EXC-007 - Air ambulance

Emergency air-ambulance transportation may be covered up to 50,000 units when medically necessary.

PLATV1-EXC-008 - Unauthorized non-network planned care

Planned treatment at a non-network facility without prior approved exception is excluded.

PLATV1-EXC-009 - Services outside policy period

Services received before coverage begins or after coverage ends are excluded, even if the related condition began during an active period.

How exclusions are applied
An exclusion overrides a general benefit unless the policy contains a more specific approved exception. The advisor should cite both the benefit and the exclusion when both are relevant.

6. Required Documentation

PLATV1-DOC-001 - Planned procedure request

A planned-procedure request requires a completed request form, identification information, the treating practitioner recommendation, proposed procedure details, and supporting clinical records.

PLATV1-DOC-002 - Hospitalization documentation

A hospitalization request requires the applicable claim or request form, admission record, discharge summary, itemized hospital bill, and payment receipts.

PLATV1-DOC-003 - Diagnostic and medicine evidence

Requests involving diagnostics or medicines require relevant prescriptions, diagnostic reports, and itemized invoices that link the expense to the eligible hospitalization.

PLATV1-DOC-004 - Ambulance evidence

A ground-ambulance request requires the transport invoice and documentation showing the medical necessity and the hospitals or locations involved.

PLATV1-DOC-005 - Identity and enrollment evidence

The member may be asked to provide fictional identity and enrollment evidence sufficient to validate plan eligibility and plan version.

PLATV1-DOC-006 - Missing information

If required information is incomplete, the request may be paused until the missing record is provided. Submission of documents does not by itself confirm approval.

6.1 Claims and authorization process

Step	Action	Expected evidence
1	Confirm active plan and selected version	Plan ID, version, member eligibility
2	Submit planned-care authorization when required	Request form and clinical recommendation
3	Receive eligible treatment	Admission and treatment records
4	Submit claim/benefit request	Bills, receipts, discharge summary, reports
5	Evidence validation	Clause, limit, waiting-period, and exclusion checks
6	Decision and explanation	Approved, partially approved, declined, or more information required

7. Service Rules and Member Responsibilities

PLATV1-RUL-001 - Accurate information

The member must provide complete and accurate fictional information relevant to eligibility, treatment, expenses, and documentation.

PLATV1-RUL-002 - Prior authorization

A planned procedure requiring authorization should be submitted before treatment. Emergency care may be reported after admission within the fictional reporting window.

PLATV1-RUL-003 - Duplicate reimbursement

The same expense cannot be reimbursed more than once under this fictional plan.

PLATV1-RUL-004 - Reasonable and customary review

Eligible charges may be reviewed against fictional reasonable and customary limits before payment is calculated.

PLATV1-RUL-005 - Version control

Benefits are determined using the policy version active for the member and service date. Archived versions remain available only for historical comparison.

PLATV1-RUL-006 - Advisor limitation

The Health Insurance Policy Advisor explains retrieved fictional clauses. The advisor does not make claim decisions, provide legal advice, or provide medical diagnosis.

7.1 Example questions supported by this policy

Topic	Example user question
Hospitalization	What inpatient expenses are covered under Platinum v1?
Room benefit	How much room rent is covered per day?
Waiting period	How long must I wait for a planned procedure?
Pre-existing condition	When can treatment for a pre-existing condition become eligible?
Ambulance	Does Platinum v1 cover ground or air ambulance?
Exclusions	Are cosmetic procedures or maternity services covered?
Documentation	Which documents are required after hospitalization?
Comparison	How does Platinum v1 differ from Gold v1 for room and waiting-period benefits?

8. Clause Index

This index helps retrieval, evaluation, and support teams confirm the expected clause family for each user question.

Family	Purpose	Clause range
ELG	Eligibility and territory	PLATV1-ELG-001 to 002
LIM	Annual and coordinated limits	PLATV1-LIM-001 to 002
BEN	Hospitalization and medical benefits	PLATV1-BEN-001 to 010
ADD	Additional benefits and limitations	PLATV1-ADD-001 to 005
WAIT	Waiting periods	PLATV1-WAIT-001 to 005
EXC	General exclusions	PLATV1-EXC-001 to 009
DOC	Required documentation	PLATV1-DOC-001 to 006
RUL	Service rules and responsibilities	PLATV1-RUL-001 to 006

Synthetic data notice
All names, values, rules, limits, benefit amounts, waiting periods, and processes in this document are fictional. The document is intended only for software development, demonstration, retrieval testing, evaluation, and presentation.
